

### Level 1

Java Essentials

### Level 2

Classes and Objects

### Level 3

Object Oriented Programming

### Level 4

Threads and Design Patterns

### Project

Healthcare Application

Duration

**4 Months**

Professional Certification

# Java & Object Oriented Programming

ISSUED TO

**Eran Perera**

This certificate acknowledges the successful completion of our comprehensive 4-month Java and OOP for Developers Bootcamp. Throughout this intensive program, the participant has gained a strong foundation in programming fundamentals using Java, mastering core Object-Oriented Programming (OOP) principles. The course also delves into advanced OOP concepts and the intricacies of concurrency design patterns. By applying these skills in practical scenarios, the participant is now well-equipped to tackle complex software development challenges with confidence.

A handwritten signature in black ink, appearing to read "Mun".
